IN HIS OWN DEFENSE.

W. D. Haywood Is Placed on Witness Stand.

ENTERS EMPHATIC DENIAL

Secretary of the Western Federation of Miners, Who Has For Some Time Been on Trial For His Life, Testifies at Some Length.

Boise, Ida., July 12.—W. D. Haywood took the oath Thursday—a witness in his own defense—and in a lengthy narrative of his life and his work as a leader of his fellow miners that was interrupted by adjournment, denied guilt of the murder of Frank Steunenberg and the manifold crimes charged against him by Harry Orchard. Haywood as pale and trembling with nervousness when he left the table of his counsel and walked around to the elevated witness stand, where he faced the judge and jury and raised his right hand to be sworn. When he began to respond to Clarence Darrow's questions his voice was low and somewhat uncertain, but within ten minutes he had regained his composure, and for the rest of the afternoon he was master of his feelings. As he told of his boyhood that began with toil at the age of nine, and gave the history of his family, his invalid wife, who sat just to the left of the witness stand, began sobbing softly. His mother-in-law and her nurse soon comforted her, however, and during the rest of the afternoon she and the rest of Haywood's kinsfolk remained quiet, but deeply concerned auditors.

Haywood's testimony was chiefly characterized by positive denials of the allegations made against him by the prosecution. He denied that he met Orchard until some time after the Vindicator explosion; denied that he sent Orchard back to Cripple Creek to blow up the Independence station; denied participation in the Lyte Gregory murder, and denied suggesting or discussing the Steunenberg murder. He swore that he never gave Orchard any money at any time or place for any purpose. He declared that he never made a threat against Steunenberg, whom, he said, he regarded only as he did any politician who was being swayed by capitalistic influence. He told of a number of occasions when he met Orchard in Denver, in the ordinary course of his relations with the Federation and George Pettibone, and said he saw Orchard for the last time in August, 1905, when Orchard told him he was going to Alaska, and Haywood said he chided him for deserting his wife at Cripple Creek.

TURPENTINE EXPERIMENT.

It Has Apparently Driven Boll Weevils From Cotton Fields.

Alexandria, La., July 12.—News of an experiment with turpentine which has apparently driven the boll weevil from the cotton fields about Coushatta, La., was received here by President Paul Lisso of the First National bank of Alexandria.

An oat sack is dipped into a solution of three parts water to one of turpentine. This sack is attached to a plow by suspending it on a pole tied to the plow handles near the beams. The sack is then dragged along the cotton field. The scent of turpentine thus spread in Coushatta has remained on the ground for over a week without renewal, and not a weevil or other bug has been found. About one gallon of turpentine was used to every four acres.

FIFTY SUITS.

That Number Has Been Instituted Against Cherokee Indians.

Sapulpa, I. T., July 12.—United States District Attorney Miller filed suits against fifty Cherokee Indians to annul deeds to property of enormous value which had been issued to defendants. The government alleges that the names of defendants were placed on the Indian rolls through fraudulent testimony and that their names were stricken from the rolls after the deeds to the property had been issued to them. A large portion of the famous Glenn pool in the oil district is involved in the suit.

JAP ARRESTED.

Was In Act of Drawing Plans of Fort Rosecrans.

San Diego, Cal., July 12.—A report was in circulation that a Japanese had been arrested at Fort Rosecrans in the act of making drawings of the fort. The arrest, it is said, was made three evenings ago, but where the Japanese is now is, and who he is, is not publicly known. Major Getchell will give no information.

Pigeons' Long Journey.

Columbus, O., July 12.—J. C. Bridget, J. F. Burns and W. T. Bergin, owners of three prize homing pigeons, started the pigeons from Brenham, Tex., for Columbus on a race against time. The distance in an air line is figured 1,010 miles. Three pigeons were started.

The commissioners of Titus county, in obedience to a storm of protests, will lower property renditions.

BOLD BANDITS BAGGED.

Daring Attempt to Rob Train Is Frustrated.

PARTIES ARE ALL NEGROES

After Engineer Had Been Commanded by Leader to Halt He Opened Wide the Throttle and Speedily Went to Freight Yards.

Rahway, N. J., July 12.—A daring attempt to hold up and rob a Pennsylvania railroad freight train near here was frustrated by Engineer William B. Lawrence.

The freight train was approaching Rahway when the engineer saw a signal to stop. When he did so he was surprised to see four negroes jump from behind a clump of bushes and climb on board. One of the men boarded the engine, while the other three got on the train. The negro on the engine ordered that one car be uncoupled from the train and left behind to be ransacked by them. He threatened that there would be trouble if the order was not complied with.

Realizing that a fast express train would be along in a few minutes the engineer grasped the throttle and set train going at full speed, while the negro looked on in amazement. Twice the men endeavored to jump from the train, but fear of being dashed to death prevented them, and they hung on until the train reached the freight yards of the company at Waverly, twelve miles away. There the men fled into the country, but some policemen, who were notified, pressed an automobile into service, and the negroes were soon overtaken and arrested. They gave their names as Joseph Wilson, John Johnson, Norman and Florence Davis, all of Philadelphia.

Four or Five Cease to Sell.

Fort Worth, July 12.—Four or five saloons closed here Friday.

"NO, SIR; NEVER."

Defendant Answers Certain Interrogatories in the Negative.

Boise, Ida., July 12.—Dominick Flynn, one of the defense witnesses in the Haywood trial, was recalled by the state when the case opened Friday. He was asked as to a conversation he had with Daniel Gammy at Mullen, Ida., in 1899. The business was evidently for the purpose of impeachment.

After Flynn left the stand Haywood was recalled and his direct examination continued.

Haywood said that Orchard had been at his house three or four times. Most of the members of the union, when they were at Denver, called at his home, witness declared.

"Did you ever call on Orchard?" asked Mr. Darrow.

"No, sir; never."

"Did you ever have anything to do with buying a horse and buggy for Orchard to go on a killing expedition?"

"No, sir; never."

Haywood said Orchard came one day to headquarters in a buggy with a negro and said George Pettibone wanted to know if he could trade the rig for the gray mare which the Federation owned, one of the nineteen horses which had been used to distribute relief in the Cripple Creek district. Pettibone was anxious to get the mare for one of his delivery wagons.

Witness denied severally and positively that he talked to Orchard or planned with him the killing of General Sherman Bell, Governor Peabody, James Hearn, David Moffitt or Judges Goddard and Gabbert. He declared Orchard's story on witness stand was the first he had heard on that matter.

Haywood first met Steve Adams in 1902. He said he sent \$75 to Adams at Ogden when the latter wired he was in jail there. It was his (Haywood's) own money. Adams had been out prospecting and stated on leaving Denver that if he struck anything he would locate on it. During 1904, Steve Adams was at headquarters several times. He said he had been to "tall timber." Adams and wife were both drawing strike relief at this time.

This concluded Haywood's direct examination.

Springfield, Ky., July 12.—Misses Nellie Noe and Mary Comstock and Jacob Pangl of this place were drowned, together with a negro boy, in Little Beech Fork creek. The young people were out in a row boat, which was swamped by the high wind.

Died In Pullman Sleeper.

Charlotte, N. C., July 12.—The lifeless body of Mrs. Frances V. Garrard, a prominent resident of Queen City, Miss., was found in a berth of a Pullman sleeper attached to the Southern railway Washington and Southwestern limited train when it pulled into the local depot. Mrs. Garrard was seventy years old, and left Ocean City to visit relatives at New York City.

Twenty-four carloads of melons left Ennis, Tex., at one shipment.

FARMERS' UNION MEETING.

Several Hundred Present at Alexander Yesterday—Address by Mr. Albritton—Fine Exhibit from Steep Hollow.

The two days' session of the Brazos County Farmers' Union began yesterday at Steep Hollow and will continue through today. Three or four hundred people were present and greatly enjoyed the day. Mr. Albritton, a state lecturer of the Union from Scurry county, was present and in the forenoon was introduced by President J. H. White and delivered a public address of two hours and twenty minutes on the union, its principles and purposes and the need and value of organization. His speech was a good one and was well received.

A magnificent barbecue and basket dinner was served on the grounds and evidenced the unbounded hospitality of the people of that and surrounding communities.

A feature of the meeting was the magnificent exhibit of field crops, vegetable and fruits made by the members of the Steep Hollow local union. Among other things, twelve varieties of corn were shown. Mr. I. M. Cook had on exhibition two stalks of White Prolific corn one of which had five ears and the other seven.

The Union held a business meeting in the afternoon with President White presiding and Secretary W. B. English at his desk. The work of the meeting will continue today, among the important matters to come up being the election of officers.

W. J. Bryan says the war talk and assembling of a fleet in the Pacific is not to repel an expected attack from the Japanese, but to influence congress for large naval construction appropriations.

MR. J. H. HIGGINBOTHAM DEAD.

The Eagle has received a communication from Brown county, Texas, announcing the death recently of Mr. J. H. Higginbotham formerly of this city. Mr. Higginbotham had lived in Texas since 1848, and was a resident of Brazos county thirty-two years. He was an ex-Confederate soldier and a man of upright, honorable life and christian character. The family moved to Brown county a year or two ago. His wife, who still resides there, and one daughter, Mrs. Mark Clary of Brazos county, survive. The only other child of Mr. and Mrs. Higginbotham, Mrs. Lee Frazier, died in Bryan just previous to the removal of the family to west Texas. Many friends of the family learn with deep regret of the death of Mr. Higginbotham.

RAILROAD CONTROL.

Most Radical Proposition Yet Submitted to President.

Chicago, July 12.—A dispatch from Washington says that an entirely and extremely new radical proposition for the control of railroads has been advanced for the consideration of President Roosevelt. It involves the partial government ownership of transportation lines by the actual purchase of stock. The suggestion has been made in a semi-official way, but whether President Roosevelt will adopt the scheme, which is so nearly socialistic in its development, may well be doubted. It has been stated, however, that he is actually considering such a recommendation, and that is part of the proposition to bring the railroads to time by securing receivers for them. The idea of purchasing stock is a practical one, but it is undeniably government ownership on a small scale, and the inevitable result will be actual ownership in the long run.

The theory of those who have advanced this scheme for the consideration of President Roosevelt is that by a comparatively small investment in stock there might be a small measure of government ownership, but without any government control so far as running the road is concerned.

SANTA FE'S ENTRY.

Plans For It to Go Into New Orleans Made Known.

New Orleans, July 12.—The Picayune says plans of the Santa Fe system for entering New Orleans and establishing a new transcontinental route from the Gulf of Mexico to the Pacific ocean were made known by the visit of the officials of the Santa Fe system to New Orleans. General Superintendent Maxon, Chief Engineer Felt and General Freight Agent Hershey of the Gulf, Colorado and Santa Fe, made a preliminary inspection to effect a traffic arrangement with the Gould lines which will put the Santa Fe-Texas lines into New Orleans by Sept. 15.

At the same time plans for the transcontinental route were revealed. The Santa Fe proposes to build a connecting line from their San Angelo road in Texas to their main line to the Pacific coast. This connection is projected either between Coleman Junction or Brownwood, Tex., to Texico, which is on the dividing line between Texas and New Mexico, and will make a route to the Pacific about three hundred miles shorter than the Southern Pacific. Meanwhile the Santa Fe will construct its own line into New Orleans, using the Gould connection temporarily.

The Santa Fe also proposes to build a connecting line between Center, Tex., and Tulsa, I. T., to furnish an outlet through New Orleans for the Kansas, Nebraska, Missouri, Oklahoma and Indian Territory districts.

CONSULAR SERVICE.

Examination of Applicants Has Come to an End.

Washington, July 12.—Examination of applicants for appointment in the consular service, which has been in progress at the state department for the past three days, has been concluded, but names of those successful will not be announced for several weeks. Only forty-eight of the fifty-two candidates designated by Secretary Root presented themselves for examination. Included in list were: Virginia, 8; Georgia and Tennessee, 3 each; Kentucky, Maryland, New Mexico and Texas, 2 each; Mississippi and Missouri, 1 each. Two of the applicants are negroes.

SIXTEEN INJURED.

Work Train Failed to Send Out Flagman While Taking Water.

Somerset, Ky., July 12.—Sixteen men were seriously injured in a wreck on the Queen and Crescent road when a local freight crashed into a work train near the Tennessee line. A relief train brought the victims to the sanitarium here. The injured are: Caleb Owens, L. B. Mulkey, W. H. Angel, Frank Fitzpatrick, Robert Shepherd, J. M. Ross, Frank Lovell and B. Lovette. The wreck was caused, says an official announcement from Superintendent Caldwell, by the work train failing to send out a flagman while taking water.

Turns Over Property.

Macon, Ga., July 12.—Former Cashier C. M. Orr of the Exchange bank, which was put into the hands of receivers last Sunday, has transferred to the bank named real estate and personal property said to comprise all his property. The various lots and personal property transferred aggregate \$45,000. Mr. Orr was cashier of the Exchange bank up to Jan. 1, 1907, but failed of re-election at the annual election then held.

Denounced as False.

Seattle, July 12.—A sensation was created in the Christian Endeavor convention when, after C. M. Tate had stated in open parliament that the Indians were being abused and permitted to fall into moral decadence, Silas B. Whitman of the Lapwai Indian reservation arose and denounced the utterances of the speaker as exaggerated and false.

One Killed, Five Injured.

Birmingham, July 12.—In a mine explosion fifteen miles northeast one man was killed and five hurt.

Denison to Own Waterworks.

Denison, July 12.—This city decided by a large majority to issue \$125,000 bonds to purchase waterworks.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I uniformly cure all curable cases of this heretofore most dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Heart Strength

Heart strength, or Heart Weakness, means Nerve strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves. This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wandering nerve centers. It builds, strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

BURLESON OIL WELLS.

The drill is going down again at Mound Prairie, and this time will probably bring results. This field has been carefully watched by expert oil men, and the first well was carefully tested and the chances are that the second will prove a paying proposition, and mean something to the county. Oil companies with a limited amount of capital are not in the habit of sinking a second well when the first has proven a "duster," and the fact that the second well is going down proves conclusively that there is something there worth while.

Work has been resumed on the new Sebesta oil well, having been discontinued for the past week on account of the necessity of getting another boiler to supply water for drilling purposes. The well that is now being drilled is only a few feet from the old well. A depth of about 300 feet has been reached at present, but prospects are not so flattering as they were in the first well, as it was claimed then that oil was found all the way from the grass roots down to the bottom of the well, but somehow not a sufficient quantity of it was ever brought to the top of the ground.—Caldwell News-Chronicle.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

ACTION OF SALOONISTS.

Some Have Complied With New Liquor Law.

Houston, July 12.—Houston saloons were all open Friday morning. They will continue to do business unless legal proceedings are instituted against them. It is expected that new saloon licenses will be received in a few days.

PISTOLS AT COST.

Saloons Closed Tight and Proprietors Gone Fishing.

Waco, July 12.—All saloons are closed tight and many saloonists have gone fishing or are having repairs done on the buildings during the interim. It is believed the hiatus will be observed by all saloon men.

Pistols are being sold at cost here, dealers wishing to get rid of them before the new law becomes effective requiring giving of half the amount on each sale to the state.

Bucketshop men are talking in groups, but all such places are closed. There is much confusion about not being able to get copies of the new laws.

Galveston Situation.

Galveston, July 12.—All new laws are being observed generally here with the exception of the liquor closing one. The majority of saloons here are open. Probably six are closed. No arrests were made and nothing being done to prevent them carrying on business as usual. Those closing did so to keep on the safe side, believing it will be to their favor in securing license under the new act.

Says He Is Right.

San Antonio, July 12.—One saloon out of the 227 here is open. The proprietor says he is right and intends to do business. His action is not regarded as a test case.

MARITIME QUARANTINE.

Texas alone of the all gulf states maintains a state maritime quarantine, the other states having turned the quarantine over to the Federal government. The Galveston Chamber of Commerce sent a request to Washington for the sake of the welfare of the port that Galveston be given a quarantine station and regulations the same as those of other gulf seaports.

RECEIVED NO AWARD.

Banner Oil Company and Austin Man Secure Bulk of Contracts.

Austin, July 12.—The Waters-Pierce Oil company received no award of contract to furnish the state with oil of any kind during the next twelve months in the list of awards announced by State Purchasing Agent Cravens. The Bonner Oil company of Houston and W. H. Richardson of Austin secured the bulk of contracts in this line.

The supreme court set for hearing on Oct. 7 the mandamus proceedings brought by County Judge Criner of Val Verde county, who seeks an order to compel District Judge Thomas to restore him to office and the removing of James I. Moore, who was appointed by the court in his stead. Judges Gaines and Williams, the only members of the court present, stated that they could not hear arguments and decide the matter until the regular term in October.

INTERESTING CEREMONY.

President's Trophy Presented to the Torpedoboot Preblo.

Vallejo, Cal., July 12.—An interesting ceremony took place at the Mare Island navy yard when the president's trophy was presented to the torpedoboot Preblo. The Preblo in the recent annual target practice at Magdalena Bay, secured a higher score than any other vessel of her class in the navy and was awarded the first prize, a bronze medal. Commander Lieutenant Frederick Freeman assembled the crew and read the orders from the secretary of the navy designating the vessels which won the prizes and naming the Preblo as the leader of her class. Commander Lieutenant Freeman then said: "If we can beat our own navy we can beat any one else." Three cheers was given for the president and the United States navy.
